"We welcome you to the Camping Comforts of Arctic Fox Truck Campers"

Arctic Fox
Camper

Ron and Sherry Nash

Model 990 * Wet Bath * Cocoa Interior
Arctic Fox Campers Always Lead The Pack!

Built to withstand off-road use without leaving behind the comforts of home, the Arctic Fox Camper is the most innovative truck camper on the market today. For years, Northwood has been the industry leader with the truck camper slide-out concept and this year is no exception! With the launch of our Silver Fox aircraft style superstructure, our Transverse Floor, and our deepest slide out yet, we plan to continue leading the industry in innovative slide out camper engineering. Like all Arctic Fox Campers, these new Foxes are durable enough for extended cross-country and off-road travel. The availability of Full-wall slide-out in all models is a trade mark of the Arctic Fox.

We build our slide outs right, using dual rack and pinion slides (while many competitors rely on a single slide mechanism.) Heavy duty rollers carry the slide-out allowing the room to move smoothly. Five separate seals insure against water intrusion. The slide room is completely insulated for your comfort in all weather conditions. You have your choice of three beautiful interior decor colors. Feature fabrics enhance the solid oak hardwoods and textured wall boards. We use only commercial grade vinyl floor covering and you also have the option of a removable carpet kit.
Approximate Overall Weight and Measure Specifications For Arctic Fox Campers:

Please note that weights are approximate for estimation purposes only. Specifications and weights subject to change without notice. 7/05

(Weights Include Full Wall Slide Option)

Use these figures to estimate the total weight of the coach with optional camper weight add-ons.
Available In These Color Palettes

Cocoa  Frost  Brentwood

Arctic Fox is a leader in full wall slide out truck camper design. We are proud to bring you a variety of big slide out camper options. Our full wall slides are up to 26" deep, (bigger than most of our competitors).

Our Aluminum super structure slide can operate under heavier load conditions than others too.

When you compare the specifications of our slide out with the competition, you will see why Arctic Fox continues to be the leader.

Our transverse floor structure allows us a wide main floor area. The Arctic Fox Camper has a spacious feel that is immediately apparent when entering the coach.
Curtissian folding wall is standard with all Arctic Fox Campers.

Extra Large Holding Tanks with up to:
- 46 Gal Fresh Capacity
- 35 Gal Grey

Some features are not available on certain models, see your authorized dealer for more information.

Northwood Manufacturing reserves the right to modify options, change feature availabilities and plan configurations at any time.

Northwood manufactures its coaches with many of the popular options that our customers normally request. The vast majority of our customers request these options so unless otherwise specified, our regular manufacturing runs will include all of these 'most popular' features. You will find these items designated with an "I" in the options chart above.
Plenty of Sleeping Accomodations

Warm, Spacious, Quiet & Comfortable all of these words describe the bedroom suite in The Arctic Fox Camper. The suite features a deluxe queen-size mattress with coordinated bedspread and window valance accents. The sleeping area is equipped with an expanding curtain wall between the main cabin and sleeping area providing privacy to both sections. The bedroom also has plenty of headroom for entering and exiting the main cabin. The dinette in all Arctic Fox Campers also converts to a comfortable additional sleeping area for kids or guests.

Roll-Over Dinette / Lounge
In this option, our removable table in the slide out allows the lounge to roll-over and convert to an extra sleeping area.

Safety Features
- Smoke Detector
- LPG Leak Detector
- CO Detector
- Fire Extinguisher
- Exterior Entry Assist Handle

- Heated Holding Tanks
- 1" Radius Corner, Insulated Luggage Doors
- ...w/ Rubber Seals, Metal Locks, ...and Thumb Latches & Pulls
Fox Camper Safety Tips

Truck manufacturers state that you should not exceed the GVWR for the vehicle that carries your camper. The configuration of your truck will determine what size camper your vehicle can carry. A dual rear wheel truck is advisable for Arctic Fox Campers over 10 ft.

Some states allow passengers to ride in the camper, but it is not recommended as there are no seat belts available.

Use camper guides to help you easily load to the center of your truck for balance and safety.

**Fox Camper Safety Tips**

- Larger Tank Capacity - All Tanks are Enclosed, Insulated, & Heated (A True 4 Season Coach).
- Sliding Battery Tray Holds Two Group 29 Batteries-420 Amp Capacity
- Wet or Dry Bath Avail. (Most Models)
- Large Double Door Refrigerator
- Sliding Storage Pantry Rack
- Solar and Satellite Ready
- 60"x80" Queen Size Bed
- 2 - 7 gal LPG Tanks
- Wider Entry Door
- Kitchen Skylight
- Phone Jacks
- ...Much More!

Adjustable air bags will help to level your vehicle transfer rear axle weight forward for comfort and safety and are recommended for all Arctic Fox applications.

For your safety while driving, use mirrors that allow you to view past the camper to the rear on both sides. Trucks can be purchased with extended mirror options or you may purchase mirror extensions.

When driving in any adverse weather condition it is always best to reduce your speed.
