Welcome!

Northwood is pleased to introduce to you the 2009 Arctic Fox. With 27 plans to choose from, there is an Arctic Fox to fit the needs of nearly every RV buyer. If you’re in the market for a compact travel trailer & have off-road recreation in mind, or you’re looking for a spacious 5th wheel for park camping, the Fox offers a wide variety of features and options sure to satisfy your needs. That’s because the Fox was designed with the informed RV purchaser in mind. We invite you to take a look and you’ll see why Arctic Fox is the RV of choice for the experienced buyer, and why the Arctic Fox is known as “Your Home Away From Home.”

Comfortable:

You’ll be assured of a restful night’s sleep in your Arctic Fox. All mattresses are deluxe queen size and some models offer a bunk bed option. Twin beds are available as an option on the 26X, 21-5R, 23-5A, and 24-5N. Some
Form & Function: Interiors that work, beautifully!

bedroom plans feature built-in vanities with large drawers and cabinets and designer Wilson Art laminate tops. Additional features and options include large mirrored closets, swivel slide-out TV mounts, bed slide outs with opening side windows, and many residential features providing all the comforts of home.

Confidence:
Beyond its features, Arctic Fox has built its reputation on quality materials and solid construction methods. Because the Fox is so durable, satisfied owners are pleased to discover how well the Arctic Fox maintains its resale value ... if you're ever willing to turn loose of one!

Slide Rooms:
Super slide models come with a jackknife sofa or optional hide-a-bed and a booth dinette that converts into an additional sleeping area or you can choose a free standing 4 chair dinette.

Our Slide rooms travel on electric driven heavy duty rack and pinion rams and have 4 individual seals that maintain a seal when open, closed, and even while in transition. The Fox is Smart!
Exterior:

All Arctic Fox models feature corona treated filon fiberglass exterior siding that looks great and is durable and easy to maintain. The diamond plate front rock guard and rear bumper wrap are tough, attractive and built to last. The Arctic Fox is quality materials and construction from start to finish!

Outside the Fox, you will find sidewall drip rails with oversized drain spouts to project water away from the coach. There are multiple patio lighting placements and you can add an auto scanning satellite receiver and many other convenient options.

Safety:

All Foxes are equipped with large retractable safety entrance handles and retractable non-skid double and triple steps for safe, easy access. And the Fox also has one of the highest highway safety ratings in the industry today.
At first glance, it might seem strange to include a picture of a steel I-Beam in our brochure, but we know that our chassis’ are gorgeous! Everything rides on the quality of your chassis and suspension and Northwood builds the best under every Arctic Fox! Look underneath the coach and see for yourself, your family’s safety is secure in the Arctic Fox. You’ll feel the difference that a quality chassis, larger axles, bigger brakes and all wheel shocks will make as you travel down the road or when you get adventurous and take your Fox off-road.

RV Consumer Group has given the Arctic Fox consistent high marks of Value, Reliability and Highway Control. The Arctic Fox is engineered for Safer Travel! Because our chassis are so solid, you will feel the difference when towing your Fox down the highway.

* Average rating of all models for Value, Reliability, and Highway Control (Independent non-profit rating organization)
Efficient:

Just like home, the forced air ducted heating and cooling systems in your Arctic Fox provide fast winter warm-up and quick summer cool down. The heating system also circulates warm air to our ‘4-Season’ fully enclosed & insulated holding tanks. That fact makes the Arctic Fox a big seller in cold northern climates. All Foxes come standard with R-18 insulation in the roof and R-7 insulation in the walls. Thermal pane windows are also available and all Foxes come standard with 80/20 tinted windows. These windows keep you cool, provide privacy, and protect your furnishings from harmful UV rays. All this insulation also makes Arctic Fox the perfect choice for hot southern climates.

All Arctic Foxes are equipped with a Charge Wizard battery management system to maximize your battery performance. In addition, all LPG tanks are connected through an auto change-over regulator to switch the supply of propane to a full tank when the first one is emptied.
Construction:

The Arctic Fox is Built Right! Whether it's materials like our one piece heavy gauge roof membrane, our corona treated filon fiberglass exterior siding, our DynaLock engineered plywood decking, our thick aluminum wall framing, or our construction grade dimensional lumber, we use only top quality materials in the Arctic Fox, the Silver Fox and the Special Edition.

We assemble our coaches using the best proven construction methods and processes too. Our laminated walls use fully welded aluminum frames (not spot welded) with solid block foam insulation. Our custom cabinet production uses face frame construction & real plywood shelving. You'll find no chip board in an Arctic Fox.

Northwood never cuts corners in their plumbing installation either. You'll find full 1½ inch drain lines, freeze resistant supply lines, and even a quick semi-automatic winterization system.

Our Northwood roof truss system bonds exterior plywood decking to the trusses as a unified structure that is amazingly strong yet light weight. On smaller Arctic Fox models, the diamond plate front rockguard and rear bumper wrap are tough, attractive and built to last. Larger models include molded fiberglass front and rear end caps. The Arctic Fox is quality materials and construction from start to finish!
Features:

Every Arctic Fox includes a quick winterization system, all wheel brakes, black tank flush system, abundant lighting placements, numerous electrical outlets, and ducted heating & cooling in most models. **The Arctic Fox truly is feature rich!**

Other features/options include: Quick Recovery DSI Gas/Electric Water Heater, Solar Panels, Generator, Pantry Storage Rack, High Rise Kitchen Faucet, Flat Panel TV, Auto Scanning Satellite Receiver ... and outside the coach, Sidewall Drip Rails with oversized drain spouts to project water away from the coach, Multiple Lighting Placements, and much more...

- Designer Bedspread with Pillow Shams
- Brushed Nickel Double Basin Sink
- Recessed Polymer Sink Cover
- TV Antenna
- Ducting for Air Conditioner
- Deluxe Patio Awning
- Galley Fluorescent Light
- Park TV Cable Jack
- Telephone Jack
- Pre-wired for Satellite
- Microwave Oven
- Air Conditioner

**The Silver Fox Edition products include all the features of the Arctic Fox plus all of these enhancements:**
- Aluminum Frame Construction
- Pinch Roll Laminated Construction
- Molded Fiberglass Front Cap
- Molded Fiberglass Rear Cap
- 16” Wheels
- Never Lube Axles
- Heavy Duty Greaseable Suspension with Bronze Bushings
- 12 Volt Power Jack on Trailer A-Frame
- Chassis Mount Sewer Hose Compartment
- Chassis Mount Spare Tire Carrier
- Upgraded Brushed Nickel Décor Light Fixtures
- Rheostat Controlled Recessed Halogen Lights
- Low Profile Fluorescent Lights
- Ozite Ceiling Head Liner
- WilsonArt Granite Style Bevel Edged Counter Tops
- Single Lever Galley Faucet with Sprayer
- 8 Cubic Foot Refrigerator
- 10 Gal DSI LP/110 Water Heater
Arctic Fox 5th Wheel Floor Plans:

Kitchen:

Arctic Fox 5th-Wheels and Travel Trailers offer a spacious galley work area for food preparation. All coaches feature an extra large range with a 22” oven and range hood with overhead light and exhaust fan. All galleys feature a microwave oven and double door gas/electric refrigerators. Sinks are brushed nickel deep double basin models with either a hi-rise faucet or a single lever model with sprayer. Self edge counters are standard, and a free-standing 4 chair dinette is a popular option available in some models. We provide ample storage in overhead cabinets, under counter cabinets, shelves, and drawers. Add the BBQ grill option and you’ll feel like you’ve never left home!

Whether you’re hunting, camping, working or adventuring, you’ll find every floor plan is innovative, practical and comfortable.
If you are looking for the ultimate in RV quality and luxury, your search is over. The Silver Fox Special Edition is the perfect blend of functional excellence and residential comfort and elegance. How is this possible? Start with all the value and features of a Silver Fox fifth wheel, and then add all the refinements and amenities you would choose when designing your own custom home.

As you prepare your specialties in the Special Edition galley, enjoy the deep dual stainless steel sink set into a beautiful Solid Surface counter top, the beautiful and durable Mannington floor covering, and other amenities such as a convection microwave oven and the centralized vacuum system. Appreciate the roomy dining table and chairs, the comfortable furniture and deluxe inner spring mattress that ensure your comfort and relaxation. Relax regardless of the time of year with the “All weather coach” insulation, a 35K furnace, and the 15K BTU ducted air conditioning. Take your entertainment on the road with the CD/DVD friendly 5.1 Surround Sound system and the 27” flat screen TV.

Travel in refined style with clean graphics on “Reflections” Hi-Gloss gel coat fiberglass exterior siding and modern aluminum wheels. Stay protected with the standard deluxe patio awning and slide topper awnings that feature “Alum-a-Guard” protective covers. Feel the enhanced towing experience that comes with the 5th Airborne pin box.

You can further customize your Special Edition model with optional features for even greater luxury and convenience. You see the value, luxury, and comfort. What are you waiting for? You see yourself owning a Silver Fox Special Edition of your very own!
The Comforts of Home...

Residential Styling

36-5V Nutmeg Interior

(all photos)
A Solid Foundation:

Structural Steel:
All Northwood 5th Wheels & Travel Trailers are built with structural steel main rails of I-beam or C-channel. The full length main rails and full width cross members insure a solid structure for easier towing and a quality feeling structure under foot. Each chassis also include Z cross members for additional strength.

Camber Welds:
Special welds are applied along the top of the main rails to create camber. Our cambered frame has greater load carrying capabilities than others. Our chassis functions in the same way as a pre-stressed structural beam. The Arctic Fox won’t sag like the competitors models under full load weight - even after many years of service.

Cast Iron Manifold:
We nest our LP gas manifold line within the chassis structure to protect it from damage. We use large dimension pipe to improve gas flow to all appliances. We also use brass fittings to attach appliance feed lines to the manifold. All of these considerations make our gas supply system extremely durable and problem free. LP appliance feed lines are protected with vinyl sleeves and sealed with silicone when they pass thru the floor.

Higher Value:
Extra considerations such as these insure that your Arctic Fox will maintain its value and that Northwood coaches will continue to be a top performer among competitive RV manufacturers.

Dual Battery Racks:
All Northwood travel trailers include dual battery racks that are welded directly to the frame. Travel trailers include a large capacity, dual LPG tank rack that is conveniently located at the trailer tongue for quick access.

Standard Features:
- 12 Volt Exterior Lighting at Hitch, Waste Dump, and Patio Areas
- Large Capacity Exterior Access Storage Compartments With Top Quality Automotive Weather Seals
- Marine Style Exterior Shower
- Slide-Out Pantry (Most Models)
- 2000 Lb. Tongue Jack
- Dual #30 or #40 LP Tanks
A True 4-Season Coach:
Fully Insulated Compartment:

The Arctic Fox is a true 4-Season Coach. Our fully insulated holding tank area circulates warm air around the suspended tanks providing the best protection from freezing.

The tanks are large and will hold up to 76 gallons of fresh water capacity, 75 gallons of gray water storage, and up to 44 gallons in the black storage tank. The black holding tank comes with an internal sani-

flush system for easy maintenance. Standard in all Arctic Fox Fifth Wheel and Travel Trailers.

Convenient:

The built in black tank flush system is simple to use and makes maintenance of the waste holding tank quick and easy. The Arctic Fox is designed with your convenience in mind.

Built-in Black Water Flush System Standard In All Models

Optional Features:

Auto-Scan Satellite Dish
Flat Panel TV
Solar Panels 50 & 100 watt
Onan Generators (select models)
5th Airborne Shock Absorbing Pin Box
Slide Topper Awning (slide models)
