Versatile Furniture allows you to convert your Desert Fox into the best configuration required for your specific need. Comfortable: whether you use it for seating as a jack knife sofa and a dining table and bench or as a bed when folded down for sleeping. Fold them against the wall to create space for your toys. Optional electric queen beds power down to create additional sleeping or conveniently stow overhead leaving the space available for living or hauling.

The front bed on the 28KS is not only 80 inches long but it lifts up to provide below bed storage for bulky items. Abundant overhead cabinetry ensures you’ve got a spot for all of your hard to locate items.

Desert Fox provides all the functionality of your kitchen at home. Amenities include a dual basin sink with a cutting board cover, a full-sized oven and range top (complete with cover), a microwave oven, an 8 cubic foot refrigerator and plenty of drawers and overhead cabinets.
Welcome to the **The Desert Fox** by Northwood Manufacturing. Let us show you around....With several plans to choose from, there’s a Desert Fox that will fit the needs of nearly every Sport Utility RV buyer. Whether you’re in the market for a compact Toyhauler like the 21SW or a spacious Full Size garage model like the 28KS, The Desert Fox offers a wide variety of features and options sure to satisfy your needs. That’s because Desert Fox SURV was designed with the informed RV purchaser in mind, combining comfortable features and user friendly functionality for the best fit and value in a Sport Utility RV. We invite you to take a closer look and you’ll see why Desert Fox is the Quality Sport Utility RV of choice for the experienced buyer...and you’ll see why we say, The Desert Fox is...

**“Made To Play Hard”**

---

Convenience even in the bathroom. You’ll appreciate the large basin sink for quick clean-ups, the foot pedal flush toilet, tub/shower walls for easy cleaning and durability, medicine cabinet storage for convenient toiletry access and great proximity to a wardrobe closet.

The main cabin of the 28KS provides all the space you’ll need to carry your toys of choice. Desert Fox’s wide body design provides a valuable extra 6” of interior width. Heavy duty Armstrong linoleum and 6 flush floor tie-downs protect your cargo- and your Desert Fox during travel. The 90” X 90” fold-down cargo door, rated at 2500 lbs, provides dependable access and the compression seal around the cargo door keeps your contents clean and dry.

Dining is easy whether you use the free standing table inside or relocate it outside to provide additional table space for your cookout or tailgate entertaining. Inside, the adjacent large window allows for ventilation and the overhead fixture provides light for meals regardless of the hour.

Take additional fuel with you for your toys or to supply the optional generator. Features include an automotive type fill spout complete with adjacent fuel gauge. The 30 gallon tank provides 25 gallons on fuel accessible through the hose and spray nozzle to refill your toys or tow vehicle.

BENEFITS OF LOCALLY PURCHASING YOUR RV:

* You enjoy valuable relationship building with Dealer Representatives, close to your home, who will explain the features and benefits of the product.
* You receive a full product orientation prior to delivery, which includes hands-on directions for many of the coach’s systems and functions. You are also introduced to the Dealership’s Service/Parts/Warranty personnel who are at the ready to help you with any issues you may encounter, now and in the future.
* You enjoy customer PRIORITY. Dealerships generally service their purchasing customers first — others may experience long delays and miss opportunities to use their RV. What is it worth for you to have a dealership’s full attention and motivation to satisfy you when you need service — in a timely manner?
* Valuable TAX dollars and jobs stay in YOUR community which pays for your roads, schools, police and fire departments.

Thank you for taking a moment to check out our Northwood products. Our highest priority is to offer you the best combination of quality and value in an RV and we are confident you will appreciate and thoroughly enjoy your Northwood RV purchase for many years to come.
Structural Steel:

All Northwood travel trailers are built with structural steel main rails of I-beam or C-channel. The full length main rails and full width cross members insure a solid structure for easier towing and a quality feeling structure under foot. Each chassis also include Z cross members for additional strength.

We design and build our own chassis to guarantee quality and excellent drive ability. We use only top quality finishes to prevent rust, and also double prime our welds for added protection.

Camber Welds & Dual Battery Rack:

Special welds are applied along the top of the main rails to create camber. Our cambered frame has greater load carrying capabilities than others. Our chassis functions in the same way as a pre-stressed structural beam. A Northwood trailer won't sag like the competitors models under full load weight - even after many years of service. All Northwood coaches include dual battery racks that are welded directly to the frame. Travel trailers include a large capacity, dual LPG tank rack that is conveniently located at the trailer tongue for quick access.

Cast Iron Gas Manifolds:

We nest our LP gas manifold line within the chassis structure to protect it from damage. We use large dimension pipe to improve gas flow to all appliances. We also use brass fittings to attach appliance feed lines to the manifold. All of these considerations make our gas supply system extremely durable and problem free. LP appliance feed lines are protected with vinyl sleeves and sealed with silicone when they pass thru the floor.
