Built to go where others fear to tread!

“Quality You Can See”

“First in the Field”
The Nash offers large slide-outs and a rear kitchen is featured in this 25P model. Whether you’re hunting, camping, working or adventuring, you’ll find every floor plan is functional, practical and comfortable. Our new exterior package includes special skirting and a deluxe graphic package that will make your Nash stand out from the crowd.

The Bathroom in a Nash is designed with your convenience and comfort in mind. Our popular full width rear bathrooms such as those in the 22H, 22G, 25S and 25R feature large full height wardrobe cabinets to provide clothes storage and a large dressing area. These models are also available with an on-board generator.

The Kitchen: Nash travel trailers offer a spacious kitchen work area for food preparation. All coaches feature an extra large range with a 22” oven and range hood with overhead light and exhaust fan. All kitchens feature a microwave oven. Self edge counters, a large double door refrigerator and dinette are standard. An optional free-standing 4 chair dinette is available in some models. We provide ample storage in overhead cabinets, under counter cabinets, shelves, and drawers. Nash travel trailers are rated among the safest and most durable coaches in their class.
Northwood is pleased to introduce to you this year’s Nash travel trailers. With 8 floorplans to choose from, there is a Nash travel trailer to fit most every need of the RV buyer. The Nash offers a wide variety of features and options sure to satisfy. That's because The Nash was designed with the informed RV purchaser in mind. We invite you to take a look and you'll see why Nash is the RV of choice for the value minded buyer, and why the Nash is known as "Practical, Comfortable and Off Road Tough".

The Bedroom: You'll be assured of a restful night's sleep in your Nash. All mattresses are deluxe queen size (except 19B & 22H). Bedrooms include coordinated bedspreads and window treatments, plenty of storage cabinets and a large underbed storage area in most models. Nash bedrooms also feature spacious overhead cabinets and you will find many other residential features in the Nash offering you all the comforts of home.

Slide Rooms: Super slide models come with a jackknife sofa or optional hide-a-bed and a dinette that converts into an additional sleeping area or can be configured as a free standing 4 chair dinette. Our slide rooms are extra deep and come standard with ventilating windows and large overhead cabinets. The slide mechanisms are electric driven heavy duty rack and pinion rams and the room has 4 individual automotive bulb seals to maintain a seal when open or closed, and even a wiper seal while in transition.
Sit & Sleep Sofa / Bed Option

... It's as Easy as 1-2-3!

Sit & Sleep sofa folds down and a full 60"x 80" queen mattress folds over!

Now available in the 22G

BENEFITS OF LOCALLY PURCHASING YOUR RV:

* You enjoy valuable relationship building with Dealer Representatives, close to your home, who will explain the features and benefits of the product.
* You receive a full product orientation prior to delivery, which includes hands-on directions for many of the coach’s systems and functions. You are also introduced to the dealership’s Service/Parts/Warranty personnel who are at the ready to help you with any issues you may encounter, now and in the future.
* You enjoy customer PRIORITY. Dealerships generally service their purchasing customers first - others may experience long delays and miss opportunities to use their RV. What is it worth for you to have a dealership’s full attention and motivation to satisfy you when you need service — in a timely manner?
* Valuable TAX dollars and jobs stay in YOUR community which pays for your roads, schools, police and fire departments.

Thank you for taking a moment to check out our Northwood products. Our highest priority is to offer you the best combination of quality and value in an RV and we are confident you will appreciate and thoroughly enjoy your Northwood RV purchase for many years to come.
**Structural Steel:**

All Northwood Travel Trailers are built with structural steel main rails of I-beam or C-channel. The full length main rails and full width cross members insure a solid structure for easier towing and a quality feeling structure under foot. Each chassis also include Z cross members for additional strength.

We design and build our own chassis to guarantee quality and excellent drive ability. We use only top quality finishes to prevent rust, and also double prime our welds for added protection.

**Camber Welds & Dual Battery Rack:**

Special welds are applied along the top of the main rails to create camber. Our cambered frame has greater load carrying capabilities than others. Our chassis functions in the same way as a pre-stressed structural beam. The Nash won’t sag like the competitor’s models under full load weight - even after many years of service. All Northwood coaches include dual battery racks that are welded directly to the frame. Travel trailers include a large capacity, dual LPG tank rack that is conveniently located at the trailer tongue for quick access.

**Cast Iron Gas Manifolds:**

We nest our LP gas manifold line within the chassis structure to protect it from damage. We use large dimension pipe to improve gas flow to all appliances. We also use brass fittings to attach appliance feed lines to the manifold. All of these considerations make our gas supply system extremely durable and problem free. LP appliance feed lines are protected with vinyl sleeves and sealed with silicone when they pass through the floor.
