A good idea is always a good idea. Ron Nash broke into the RV business with his no-nonsense Northwest Rugged "Pretty One in Work Boots"...The Nash Travel Trailer, and that idea took off like wildfire. The Nash DLX remains true to its roots as an affordable, well-made trailer that will last for years; a durable RV you can take off-road and be used in any season. The concept is sensible and simple. We build RVs how YOU like them. It was a good idea 20 years ago and it's a good idea today! The Nash DLX is equipped to not only meet the needs of the introductory RV buyer, but also offers amazing features not found on other entry level RVs. The Nash has always been known for rugged off-road durability but never before has it come so fully equipped and so reasonably priced. This new Nash is loaded with standard features:

✓ Equaflex Suspension
✓ Certified Off-Road Chassis
✓ TG Plywood Floor and Roof Deck
✓ Multi Layered Fiberglass Wall

...and standard amenities such as:

✓ 12 Volt Power Awning
✓ Rear Receiver Hitch
✓ 10 Gal. Water Heater
✓ Generator Ready

That's correct - you can have an optional generator on any Nash DLX model. If you are concerned about being fully self-contained, the Nash DLX is your best answer!

So, whether your idea of camping is an elk camp in winter or the campsite nearest the swimming pool at your favorite campground, you will feel equally at home in your new Nash DLX.
...AND ALL THESE FEATURES ARE STANDARD!

Equaflex Suspension

TG Plywood Floor & Roof Deck

Nash 25C DLX
Northwood Built: Heavy Duty Certified Structural Steel Off Road Chassis

**We Build Our Chassis!**

Because there is so much riding on it, we build our own chassis. The RV chassis is comparable to the foundation of a home. Ask someone who has had their home settle if they think a solid foundation is important. Quality design combined with quality steel and quality welding results in a better chassis. That is why we certify Northwood chassis through an independent testing laboratory for quality assurance. This is one of the keys to our renowned strength and durability.

**Raising the Roof: A Reason to Celebrate**

Using special construction jigs which allow us to use bow trusses, the Northwood ceiling improves upon industry application by adding adhesives to further bind the structure and by using snap batten track molding to ensure a ceiling that stays in place. The ceiling structure is constructed as a single unit and is raised to cap the entire RV in a single step.
...QUALITY & DURABILITY YOU CAN RELY ON!

Glue Bonded Laminate Walls

Our wall studs are 16” on center select lumber (better than competitor’s #2 grade). We use R7 fiberglass insulation which is hand tucked and secured. We apply a one-piece laminated exterior wall of corona treated fiberglass and double layers of lauan plywood. This wall forms an amazingly strong one piece seamless panel. Industrial strength construction adhesives glue bonds the framing to triple layered exterior siding. This provides the “Absolute strength” of the Nash sidewall.

Residential Quality Face Frame Cabinetry

A True 4 Season Coach

Solid Wood Cabinet doors ensure lasting beauty and rugged strength.

Face Frame construction gives our cabinets 'high end' residential quality.

Structurally Integrated cabinetry is anchored to the walls and ceiling structure of our coaches making both the RV and the cabinets stronger.

R-7 Fiberglass in Walls & Floor
R-14 Fiberglass in the Roof
R-15 Reflective Foil - Ceiling & Floor
Heated & Enclosed Tanks
Heated & Enclosed Valves

Hello Ron and Sherry Nash,

My husband and I have just returned from a three week tour of the Grand Teton, Yellowstone, and Glacier National Parks—in our brand new Nash 17K. We wanted to share some of our photos and some of our story. This was the longest trip we have taken in a recreational vehicle. Though we have owned larger RV’s in the past, mostly motorized Class A and C motorhomes, we have never been on the road this many consecutive nights and days. Our most recent RV was a deluxe tent trailer and we knew it would be an inadequate way to travel this far, this long, and this old.

We decided to look into a small travel trailer we could tow with our Toyota Tundra. Fully expecting to purchase something used, we decided to give our local business a first look: The owner let us go scouting his inventory of new and used trailers. Once in his yard, we spotted three new trailers that were somehow “different”: different color, different shape, and different size. All these features were attractive.
He had three models of Nash on his lot. After going in and out of all three models about fifty times each, we told him we would take this small, compact 17K. Apparently your new Nash designs had not been on the lot for more than a few days, and he was embarrassed to say that he really did not have all the info on them—but he would get it.

One week later, our Nash was parked on our property and ready to be packed for a one night trial before we got busy on our serious trip. All systems worked perfectly in our remote, rustic campsite outside Quemado, NM—and they continued to surpass our expectations for capability, reliability, and easability. We are 100% satisfied customers! We would be happy to answer any questions other potential buyers might ask.

We appreciate your attention to detail and superior quality.

Sincerely,

Steve and Jealyn White
Silver City, New Mexico
We have owned both Nash and Arctic Fox products from Northwood.

In 1996 we bought our first Northwood product, the Nash 26J and we used it for 6 years. We did a lot of traveling in the Nash. We then decided to move to a slide-out model and got our 25R Fox. In 10 years of use, our 25R Fox has followed our 4x4 Dodge wherever we have gone, on and off the pavement. It has aged better than we have!

We love to boondock, so we seldom go into RV parks except for rallies and visiting relatives. We do a lot of volunteer work with Rocky Mountain Elk, Oregon Hunters and work on projects with the Forest Service and Fish and Wildlife, so we mostly camp in remote sites.

We first met Ron and Sherry Nash at the Eugene RV Show back in 1993 where they were showing their new products. We also met them a few times at the Portland RV shows. When they came out with the 26J in 1996, we bought one.
While owning the Nash, we were able to make a number of suggestions to Ron Nash and Matt Turley about design considerations on our trailer and for future product upgrades. I was impressed to see a number of those suggestions implemented in newer models. Ron always had an ear for us and he would greet us 'Hi Linda and Dave', with a cup of coffee. I feel very good about the team Ron has assembled and the way they are moving the company forward. I am proud to say that we may have been the first owners of a Nash with heated and enclosed holding tanks because of our hunting camp use. This 4-Season feature soon became standard on all Nash products.

We have been 'trailer ing' for over 45 years and the Nash was our 8th trailer, so we are not new to the RV industry.

It has really been fun watching Northwood develop and having a part in some of the changes. Thanks for a great product and wonderful, personal service, Northwood!"

Linda and Dave Wiley, Sublimity, Oregon

Our first Northwood product was a 2002 Nash 29V and we pretty much ran the tires off of it.

The service people here at Northwood have been excellent, they have saved me a great deal of time and Northwood is probably the best manufacturer I have ever dealt with.

The fit and finish in the Nash is 'all there'! I can't give high enough praise for the product and the backing the company gives you.

Dave Thomas
Eugene, Oregon
**Standard Construction Features**
- Northwood built / certified / off-road chassis
- Equaflex suspension
- Enclosed and heated fresh water tanks
- Fiberglass durable, seamless exterior siding
- 5/8" tongue-and-groove plywood main floor decking
- Fully decked 3/8" plywood 'Full Walk-On' roof
- One-piece, seamless, roof membrane
- Wood structural framing throughout
- 2" X 2" studs, 16" on center in walls, front & rear
- 2" X 3" longitudinal joists 16" on center
- 5" truss residential-style tapered wood roof rafters
- R-7 fiberglass insulation in sidewalls, roof, and floor
- Double layer R-7 with reflective foil roof insulation
- Reflective Foil insulation throughout underbelly
- Darco one-piece RV under siding
- 1/2" plywood bed and bunk platforms
- 2" thick laminated route-out dinette platforms
- Electric-power rack and pinion slideouts

**Standard Interior Features**
- Stereo/AM/FM/CD
- High Valley Maple cabinetry throughout
- Solid wood mortise and tenon cabinet doors
- Solid wood drawer faces
- Armstrong residential wear surface floor covering
- Designer décor border
- Valance window treatments
- Jack knife sofa (converts for sleeping)
- 12V light fixtures throughout
- 110 electrical outlets throughout
- Square cabinet door frames
- Mini-blind privacy shades throughout
- Residential furniture by Homestyle
- 10" electric brakes on all wheels

**Standard Exterior Features**
- Generator ready
- Solar ready
- Rear receiver for cargo rack / bike carrier
- 15" radial tires
- Metal wheels and hub covers
- Leaf spring suspension system and straight axles
- Amber patio light with interior switch and hitch light
- Large luggage compartments w/radius corner doors and metal pulls
- Non-skid retractable entry step
- Entry assist handle and hurricane door latch
- Bumper with drain hose storage and end caps
- Galvanized steel wheel wells
- Insulated wheel wells on non-slide models
- Mud flaps
- Molded ABS LPG tank cover
- Fiberglass entry door with radius top corners
- Screen door with kick panel
- Rain gutters with oversized down spouts
- Diamond plate front gravel guard
- Radius cornered windows with screens
- Dual battery rack welded into A-frame
- Park cable TV hook-up with RG6 cable
- Digital TV antenna w/signal booster
- Roof-mount antenna for radio
- Hook-up for satellite TV reception
- 12 volt power awning
- Custom gray fiberglass exterior
- Exterior shower

**Standard Safety Features**
- Dual safety chains on A-frame
- Break-away switch
- GFCI circuit protection
- Smoke alarm
- LPG leak detector
- Carbon monoxide detector
- Fire extinguisher
- Dead bolt lock on entry door
- Egress windows (for emergency escape)
Standard Bathroom Features
Marine toilet
Shower surround
Shower curtain with curved track
Additional décor shower curtain
Skylight above tub/shower
Exhaust fan
Wall mounted light switch
Large bathroom sink
Medicine cabinet with mirror
Towel bar
Towel ring
Toilet paper holder
Electrical outlet with GFCI circuit protection

Standard Bedroom Features
Bedroom roof vent
Quilted bedspread with reverse sham
Designer headboard
Camping clothes storage
Below-bed storage with gas strut assist
Night stand top and drawer
Reading lights
Mini blind privacy shades
Electrical outlets
Inner spring mattress
Designer privacy curtain
TV mount pre-block w/ hook-ups

Standard Heat, Power, and Water Equipment
12V electrical system with deluxe 110V 45-amp power converter
30 amp park power cord - 30 feet
Auto-ignition furnace with wall thermostat
In-floor heat ducting
In-ceiling A/C ducting
120V GFCI circuit protected exterior patio outlet
12V demand water pump system
Hook-up for city water
10-gal gas water heater
Two (2) 30 lbs. propane gas tanks with regulator
ABS holding tanks
Systems monitor panel
Water system winterization kit
Water heater by-pass
Black tank flush

Standard Kitchen Features
Nash signature key holder
3-burner cook top with one 9,000 BTU burner
Large oven
Range hood with light and exhaust fan
Back splash protection behind cook top
Double door gas/electric refrigerator (most models)
Designer refrigerator door panel inserts
Acrylic residential-style sink
High profile galley faucet
Sink cover / cutting board
Large drawers in galley cabinet
Galley overhead storage cabinets
Ventilating window at galley sink
Large picture window at dinette
Large dinette table
Access to dinette booth storage
Reversible dinette cushions
Laminated countertops
Microwave oven with carousel

Options
Exterior marine grade stereo speakers
Stereo/AM/FM/CD with DVD
Heated and enclosed holding tanks
Stabilizer jacks - front and rear
Sit-N-Sleep sofa sleeper
Air conditioner
Range cover
Generator
Cargo rack
Bike rack
LCD TV

Thank you
Ron and Sherry Nash

When you've been in the RV industry for nearly 1/2 a century, you've seen it all, and one thing never changes, quality sells and re-sells.

We started Northwood in 1993, building the best quality RV for the best price. That principle has never changed and we are absolutely committed to maintaining our reputation for quality in the RV industry.
