“Where Quality is Everyone's Responsibility”

---

**Solid Core Anchor Blocking**
- Anchor blocking gives substantial strength at main connection points.
- Spot welds: Only one or two threads are securing the fastener.
- Other brands: All threads are securing the fastener.

---

**Structural Aluminum Basement Floor Frame**
- ‘Big’ holding tanks require a ‘Big’ floor structure...
- That’s the Arctic Fox Basement Floor!
- Thick wall aluminum basement floor joists support our holding tanks under the basement of every Arctic Fox Truck Camper.

---

**Full Walk On Roof - 32 Employees On Board!**

When Northwood advertises a “Full Walk-On Roof” for our slide out truck campers, you not only can walk everywhere on the roof, but you could also invite a couple dozen of your friends to join you!

We tested the strength of our 992 full-wall slide model by loading the roof with 32 of our camper line employees - (a good testimonial for our camper jacks too!).

**Solid Wood Cabinetry**
- 4 Season All Weather Camper
- ...that is mounted to the Walls and the Ceiling

10,000 Arctic Fox Campers Built 1999-2012
Hey Mick,

Just wanted to let you know that I just returned from a one month shakedown of my new Arctic Fox. I put it through its paces going to Big Bend N.P., Big Bend Ranch State Park and Guadalupe N.P., all in Texas. Big Bend Ranch State Park involved about 35 miles of dirt and 4-wheel drive roads, camped in 70 mph winds in Big Bend, and got into below freezing weather at Guadalupe N.P. The camper exceeded my expectations and everything worked fine. I’m very pleased.

Your friend in Chattanooga,
Pete

“The Fox has been our Home for the last three months in all kinds of weather and all kinds of roads and has performed magnificently.”
John & Linda Ross, 990 owners

Hey Mick,

Just wanted to let you know that I just returned from a one month shakedown of my new Arctic Fox. I put it through its paces going to Big Bend N.P., Big Bend Ranch State Park and Guadalupe N.P., all in Texas. Big Bend Ranch State Park involved about 35 miles of dirt and 4-wheel drive roads, camped in 70 mph winds in Big Bend, and got into below freezing weather at Guadalupe N.P. The camper exceeded my expectations and everything worked fine. I’m very pleased.

Your friend in Chattanooga,
Pete

Over the past 2 years I have spent 182 nights in an Arctic Fox Truck camper. I started with a 990 and switched it a year ago for a 992. It’s amazing what you will discover by living in your own product. It’s the little things you discover. As a result of my ‘campouts’, we’ve added a bigger dinette window, the dream dinette, a light in the dump valve area, clear glass in the rear entry door and many more improvements.

More Arctic Fox Info
The new FOX LANDING offers a large entry platform, convenient fold away stairs and an intermediate step for easy access. The stairway can be installed to the left or right of the landing and the platform folds up out of the way for travel or when hitching your boat or trailer. Check it out!

- 4 Equal Height Steps
- Mid Step (Between Bumper & Threshold)
- New Wider Bumper
- Left or Right Hand Accessible
- Steps Fold Up in Seconds
- Single Pin Locks Into Position
- ...Found Exclusively in Arctic Fox !!!

CAMPER SAFETY TIPS: For your safety while driving, use mirrors that allow you to view past the camper to the rear on both sides. Trucks can be purchased with extended mirror options or you may purchase mirror extensions. Truck manufacturers state that you should not exceed the GVWR for the vehicle that carries your camper. The configuration of your truck will determine what size camper your vehicle can carry. A dual rear wheel truck is advisable for Arctic Fox campers. Adjustable air bags will help to level your vehicle, transfer rear axle weight forward for comfort and safety, and are recommended for all Arctic Fox applications. Some states allow passengers to ride in the camper, but it is not recommended as there are no seat belts available. When driving in any adverse weather condition it is always best to reduce your speed. The pickup should be outfitted with a durable rubber mat liner to reduce shifting while traveling. The mat will also protect the truck bed and camper from scratching while loading and unloading.

TORKLIFT frame mounted camper tie downs for greatest safety.

1. Steps in the down position. 2. Treads fold up.... 3. Landing folds up, and pin locks it into place.

More Popular Options To Consider

With the Overhead Bunk option in the dinette, you can add an extra sleeping area for a child. The bunk quickly and conveniently folds up and away against the ceiling of the slideout when not in use. You may also want to consider adding a Full Wall Wardrobe in the bedroom or a Roll-Over Lounge instead of the standard dinette. (Available in most models).
