Absolute Northwood

“Where Quality is Everyone’s Responsibility”

When Northwood advertises a “Full Walk-On Roof” for our slide out truck campers, you not only can walk everywhere on the roof, but you could also invite a couple dozen of your friends to join you!

We tested the strength of our 992 full-wall slide model by loading the roof with 32 of our camper line employees (a good testimonial for our camper jacks too!).

Structural Aluminum Basement Floor Frame

‘Big’ holding tanks require a ‘Big’ floor structure...

That’s the Arctic Fox Basement Floor!

Thick wall aluminum basement floor joists support our holding tanks under the basement of every Arctic Fox Truck Camper.

Solid Core Anchor Blocking

CONTINUOUS BEAD WELDS

ALL THREADS ARE SECURING THE FASTENER

Our Commitment to Quality

Strength

Durability

By using solid wood face frame construction and then integrating the cabinet with the structure of the ceiling and walls, our coaches and our cabinets are both made stronger.

Heated Holding Tank Area

Our fully enclosed, insulated and heated holding tank area circulates air around the suspended tanks providing the best protection from freezing. All our dump valves are also enclosed and heated to ensure smooth operation, even in cold northern climates.

Solid Wood Cabinetry

...that is mounted to the Walls and the Ceiling

4 Season All Weather Camper

ABSOLUTE

Now that’s an ABSOLUTE FULL walk-on roof!

Full Walk On Roof - 32 Employees On Board!

**The Ultimate Back Porch**

**FOX LANDING**

Manufactured Exclusively for NORTHWOOD Mfg.

The **FOX LANDING** offers a large entry platform, convenient fold away stairs and an intermediate step for easy access. The stairway can be installed to the left or right of the landing and the platform folds up out of the way for travel or when hitching your boat or trailer. Check it out!

- 4 Equal Height Steps
- Mid Step (Between Bumper & Threshold)
- Wide Bumper
- Left or Right Hand Accessible
- Steps Fold Up in Seconds
- Single Pin Locks into Position
- ...Exclusively in Northwood Campers!!!

**CAMPER SAFETY TIPS:**

For your safety while driving, use mirrors that allow you to view past the camper to the rear on both sides. Trucks can be purchased with extended mirror options or you may purchase mirror extensions. Truck manufacturers state that you should not exceed the GVWR for the vehicle that carries your camper. The configuration of your truck will determine what size camper your vehicle can carry. A dual rear wheel truck is advisable for Arctic Fox campers. Adjustable air bags will help to level your vehicle, transfer rear axle weight forward for comfort and safety, and are recommended for all Arctic Fox applications. Some states allow passengers to ride in the camper, but it is not recommended as there are no seat belts available. When driving in any adverse weather condition it is always best to reduce your speed. The pickup should be outfitted with a durable rubber mat liner to reduce shifting while traveling. The mat will also protect the truck bed and camper from scratching while loading and unloading.

*4 Equal Height Steps*
*Mid Step (Between Bumper & Threshold)*
*Wide Bumper*
*Left or Right Hand Accessible*
*Steps Fold Up in Seconds*
*Single Pin Locks into Position*
*...Exclusively in Northwood Campers!!!*

**More Popular Options To Consider**

With the Overhead Bunk option in the dinette, you can add an extra sleeping area for a child. The bunk quickly and conveniently folds up and away against the ceiling of the slideout when not in use. You may also want to consider adding a Full Wall Wardrobe in the bedroom or a Roll-Over Lounge instead of the standard dinette. (Available in most models).

**Please Note:**
The Mid Step is an option when adding a Fox Landing to a previously purchased camper.

**Use TORKLIFT frame mounted camper tie downs for greatest safety.**

When Northwood advertises a "Full Walk-On Roof" for our slide out truck campers, you not only can walk everywhere on the roof, but you could invite a couple dozen of your friends to join you!!

We tested the strength of our AF 992 full-wall slide model by loading the roof with 32 of our camper line employees.

(A good testimonial for our camper jacks, too!).

When we say ‘FULL WALK ON ROOF’ we mean it!

Don’t try this with your camper, especially if it’s a competitors model!
Our employees are in, on and around campers all day long. Please, be safe!
We purchased the Arctic Fox 990 as our first camper, and we couldn't be happier with this choice. Our initial trip was 9,000 miles in two months. We were perfectly comfortable with the accommodations. It has everything we need in a small, agile package. The quality of construction is evident. We tested the "four seasons" functionality with freezing weather in Yellowstone and simmering heat in Texas. We’re on the road again now, touring the Southwest before bringing it home to Alaska. We look forward to many more years of exploring in this truck camper.

Kim and Dan Rounsley

After we decided we wanted a pickup camper we found there were very few dealers on the east coast that sold pickup campers. While on one of our trips out west we saw pickup campers everywhere. As we traveled along we would make a point to look at the different manufacturers. We began to research pickup campers. For some reason Arctic Fox had caught our eye, after extensive study we knew we wanted an Arctic Fox...

I am very particular with our rig. Everywhere we go everyone comments and wants to see inside. They are blown away with the spacious interior... The Fox Landing was the icing on the cake!

Rodger said first, if you enjoy camping then you should have an Arctic Fox four season camper. If you have an Arctic Fox pickup camper then the Fox Landing is a must! It makes all the difference getting in and out.

Rodger once said the Fox Landing was the icing on the cake, now the hand rail is the cherry on top!

Happy Camping,

Rodger & Arlene Brill

(Nice work, Rodger)

Northwood Team: The quality and attention to detail in production of your Arctic Fox line of campers is great! Your efforts invested in time and energy result in making sure we can do the thing we enjoy the most! Sincerely, Dave & Patty Heath

We are the happy owners of a 1999, 990 Arctic Fox Camper. It may be the only AF Camper that has lived it’s entire life in the Arctic... A very proper home for our Fox. We bought the unit new, it’s still in perfect condition, everything runs & still looks new, yet it’s been kept outside all those years. It seemed very expensive at the time we bought it, but looking back, it was worth the every penny. Short of the odd little thing here and there, we’ve had no problems with it.

It is sitting on our 1998 1 ton 4x4 Dodge dually Cummins Diesel and they look like they were meant for each other. We also added a 75W solar panel on the roof to keep the battery charged. It is a great product & many people admire it.

Well done, Arctic Fox people and Thank You!

Mike & Ali Wagner

Customer photos and testimonials do not necessarily reflect the views or recommendations of Northwood Manufacturing.
Over the past 2 years I have spent 182 nights in an Arctic Fox Truck camper. I started with a 990 and switched it a year ago for a 992. It's amazing what you will discover by living in your own product. It's the little things you discover. As a result of my 'campouts', we've added a bigger dinette window, the dream dinette, a light in the dump valve area, clear glass in the rear entry door and many more improvements.

Doug Karr "The Camper Guy"
You’re ‘Free to Roam’ in an Arctic Fox Camper.
But don’t take our word for it...
...as they say, ‘A picture is worth a thousand words’...
...so here are ‘5,000’ from the Swanns
