SAFARI TUFF REAR RACK

This Optional Rack can be configured with a number of features!

   - 5” Deep Basket
   - Heavy Duty Steel Construction
   - Durable Black Powder Coat Finish

2. Optional Additional 2nd Rear Rack Basket.

3. Bike Rack
   - Holds Up To 3 Bikes
   - Top Plate Secures & Locks Bikes
   - Bikes Are Securely Gripped In A Non-Scratch Padded Channel

Be sure to add the Safari Tuff Rack & Bike Rack options to your Nash order.
What is ABSOLUTE NORTHWOOD?

Our Commitment to

Quality
Strength
Durability

When you purchase a Northwood Product, you are investing in the best quality materials, construction and craftsmanship. That is why the resale value in a Northwood RV remains higher, and your investment retains its value longer. If you ever decide to trade in your RV, you will get top dollar. That is why you don’t see many used Northwood RVs on the market, folks buy them up as quickly as they become available because they have a reputation for durability and longevity.

A True 4 Season Coach

www.Northwoodmfg.com

GLUE BONDED FRAME w/1-PIECE FIBERGLASS, MULTI-LAYER WALLS

Our wall studs are 16” on center select lumber (better than competitor’s #2 grade). We use R7 fiberglass insulation which is hand tucked and secured. We apply a one-piece laminated exterior wall of corona treated fiberglass and double layers of lauan plywood.

This wall forms an amazingly strong one piece seamless panel. Industrial strength construction adhesives glue bonds the framing to triple layered, laminated exterior siding. All these features combine to provide the “Absolute strength” of the Nash sidewall.
Northwood builds true 4-Season coaches. Our fully insulated holding tank area circulates warm air around the suspended tanks providing the best protection from freezing. Our knife valves are also enclosed to keep them from freezing. Our 4-Season coaches are insulated with various types of residential quality Rigid Foam, Batten & Reflective Foil insulation to protect you from the winter cold & summer heat.

Northwood’s Bow Trusses offer up to 5-1/2 inch center height, giving the roof plenty of runoff slope to eliminate standing water.

Solid Wood cabinet doors ensure lasting beauty and rugged strength.

Face Frame construction gives our cabinets ‘high end’ residential quality.

Structurally Integrated cabinetry is anchored to the walls and ceiling structure of our coaches making both the RV and the cabinets stronger.
Northwood Manufacturing, 59948 Downs Rd., PO Box 3359, La Grande, OR 97850 (541) 962-6274 - www.northwoodmfg.com

I have a camper’s mindset and disperse-camp off the grid for 8-9 months a year, with only 2-3 months of hookups in the winter. Each year I do miles of dirt roads, some ungraded, and double tracks with washboards, rocks, washouts, across streams and whatnot (pretty much trashed my last trailer). Not the typical RV type of travel. I did a fair amount of research last winter for a new trailer and for my 4th RV, decided on a Nash 17K. I picked it up in May and it seems to be holding up fine and it sure is comfortable to live in along with my two cats.

Take care and stay amused

Sebastian Halyard
