"The Ultimate Back Porch"

FOX LANDING

Manufactured exclusively for NORTHWOOD Mfg.

The new FOX LANDING offers a large entry platform, convenient fold away stairs and intermediate step for easy access. The stairway can be installed to the left or right of the landing, and the platform folds up, out of the way, for travel or when hitching your boat or trailer. Check it out!

1. Steps in the down position.
2. Treads fold up...
3. Landing folds up, and pin locks it into place

* 4 Equal Height Steps
* Mid Step (Between Bumper & Threshold)
* New Wider Bumper
* Left or Right Hand Accessible
* Glow Step Treads
* Steps Fold Up in Seconds
* Single Pin Locks Into Position
* Built By Torklift...

Northwood Seat Step

Use as a cabover step or as a seat. Easy to attach and remove. Simply hang it on the bulkhead wall.
Welded Aluminum Frame Construction W/laminated Fiberglass Sidewalls
Large Capacity Tanks & Amenities For Extended Camping Capability
Efficient Galley Design W/ Plenty Of Drawers & Overhead Storage
Steel Reinforced, Embedded, Bolt-through Tie Down Brackets
Block Foam Insulation With Optional Heated Holding Tanks
Structurally Superior Laminated Floor Construction
Thick Wear Surface Commercial Grade Flooring
Residential Quality Cabinetry Throughout
Led Interior/ exterior Utility Lighting
Diamond Plate Knee Wall Armor
Fiberglass Shower With Skylight
Roller Bearing Drawer Glides
Deep Tint Safety Glass
Auto-ignition Furnace

Early Autumn Interior
As seen here in the 840

Flagstone Mosaic Interior
One Piece Laminate Walls

Our aluminum wall frames are constructed of .060" thick aluminum tubing and all joints are welded full width, not spot welded like much of the competition.

One Piece Continuous Fiberglass

The outer skin of our laminated wall is a single sheet of tough, corona treated fiberglass. Corona treating ensures the polyurethane is able to properly accept the hot melt adhesives. A single piece of fiberglass eliminates seams that can leak & it's stronger too.

Steel Bonderizers

We add steel bonderizer strips inside the wall at all mounting points. The bonderizers provide a steel anchor point for any fixtures that are mounted to the walls.

Solid Core Anchor Blocking

We also add solid core anchor blocking in the frame perimeter. The solid blocking provides a substantial anchor medium for securing screw threads.

A Solid Foundation: Thick Basement Walls & Aluminum Trusses. Extra Strong Thick Wall Tubular Aluminum Floor Frame

Really Big holding tanks require a 'Really Big' floor structure...

That's The Wolf Creek Floor Structure!

Thick wall aluminum basement floor joists support our holding tanks under the basement of every Wolf Creek Truck Camper.

Continuous One Piece Fiberglass Cabover / Bulkhead

No seams that can leak!

Solid Wood Face Frame Cabinetry that is secured to the wall and ceiling!

We build our own cabinets, and every cabinet is built to the best quality specifications. By building our own cabinets, we can guarantee that they will be made right and are built to last!

Top Quality Materials

All NORTHWOOD cabinets are made with residential quality material and methods. Because we use screws, they hold up better under travel/road conditions.

Face Frame Construction

We use the same construction techniques used in quality residential cabinetry. We assemble hardwood styles with screws on a face frame machine to ensure strong, durable cabinets. The result: Beautiful, quality cabinetry and the best built truck camper!

Truck Camper Magazine Review

Spending two weeks in the 850 gave us an unusual opportunity to experience a new brand and product.

For starters, the Wolf Creek 850 is right up our alley; hard-side, non-side, fully self contained, and brimming with practical and weight saving design choices. In short, we love campers like this because they are everything we need for the kind of long distance, go-wherever camping we enjoy. Even more important, they show a willingness of manufacturers to embrace the increasing importance of lightweight truck campers and design new campers accordingly.

We really appreciated the generous holding tanks for a camper this size. Thirty gallons of fresh water? That's amazing... The gray and black tanks were also ample at nineteen gallons and twenty gallons respectively. When we turned the vent fan on, it surprised us with just how much air it pulled... 

...they put a very tall bubble window in the bathroom that allowed me, at 6'3", to see almost completely around the camper... it was really fun to be able to look around and see what was going on outside the camper...

We were mixed on our impressions of the dinette. We liked how big it was, but wondered if it needed to be quite this wide. Northwood explained that it was wide to allow for an adult sized sleeping area. It certainly was. The dinette was also comfortable and worked well during our two weeks in the camper. I appreciated the long cushion that allowed me to stretch out. We found an outlet under the dinette in the perfect place to plug in our laptops. Nice touch.

Kitchen storage and counter space were plentiful for a truck camper this size. We also liked the round sink and tall faucet.

Having a large storage drawer under the cockpit instead of an oven was another practical cost and weight saving decision. As we get more experienced with cooking in a truck camper, we use camper ovens more and more. That said, we didn't use a camper oven at all except to store pots and pans until the past couple of years. Could we live without the oven? We sure could. Did we appreciate the additional storage of the drawer where the oven would have been? You bet.

The three cubic foot refrigerator was smaller than we're used to, but it fit our normal round of groceries with ease. What we lost in space we gained in a lighter weight refrigerator. We can't all ask the manufacturers to make their campers lighter without being open to options like a smaller refrigerator. This is a compromise I could live with as we never found the space in the refrigerator to be lacking. Sure, it's nice to have separate freezer and refrigerator sections, but this was perfect for what we needed.

On the driver's side overcab entry was an open storage spot just underneath it. We used this for overflow items and found it to be very useful and practical. It also saves a little more weight by not having a door.

We really loved the storage under the overcab step-up. We put our sneakers in there when we were wearing sandals, or vice versa.

As always, little things make the biggest differences.

For example, the overcab reading lights in the Wolf Creek are outstanding. Unlike too many other overcab reading lights, they are not too bright or too hot. Some overcab reading lights make you wonder when the men in black will arrive to ask you exactly where you were on October 18th, 1972, and what you were doing there. We also appreciated that these lights were easy to move. I liked them pointed away, to give a more indirect and ambient light.

As always, little things make the biggest differences.

On the passenger's side of the overcab, the Wolf Creek had what I would call a night stand. The front of the night stand had an open storage spot just underneath it. We used this for the perfect place to put in our iPod Touch (alarm clock) on the nightstand.

On the driver's side overcab entry was a standard cabinet with plenty of storage. On the driver's side overcab entry was a standard cabinet with plenty of storage. Standard Construction Features
Fully welded, thick wall aluminum frame construction
One-piece corona treated continuous fiberglass
Hot polyurethane laminated multi-layered substrate walls
High density block foam insulation
One-piece, seamless roof membrane
Insulated compartment access doors
Radius cornered, locking luggage compartment doors
Extended cab-over design
2-piece steel reinforced bolt-through tie down brackets
Diamond plate knee wall armor

Standard Exterior Features
LED exterior lighting
Entry assist handle
Fiberglass, insulated entry door
Screen door with kick plate
Rain gutters with oversized down spouts
Radius cornered windows with screens
Dual battery capacity
Dual LP tank capacity
Park cable TV hook-up with RG6 cable
Tinted safety glass windows
Wide view rear window w/cover
TV antenna
Pre-wired for satellite
Pre-wired for solar panel
Pre-wired for stereo
Pre-wired for fantastic fan
Pre-wired for power jacks
Truck storage access passage

Standard Interior Features
Residential quality cabinetry throughout
Solid wood mortise and tenon cabinet doors
Roller bearing drawer guides
Solid wood drawer faces
Roll-over clothes hanger

Standard Kitchen Features
High output 3-burner cook-top
Range hood with light and exhaust fan
3 CU FT fridge w/insert panels
Acrylic residential-style sink
High profile kitchen faucet
Multiple drawers in kitchen cabinet
Kitchen overhead storage cabinets
Ventilating window at kitchen sink
Dinette table

Large picture window at dinette
Dinette storage with interior access
Plush dinette cushions
Laminated counter tops
Designer décor border

Standard Heat, Power, & Water Equip.
Interior command center
12V electrical system
Deluxe 110V 45-amp power converter
30-amp park power cord
20K BTU auto-ignition furnace
110V GFI circuit protected exterior patio outlet
12V water pump system
Hook-up for city water
6-gal DSL gas/electric quick recovery water heater
1-20 lb LPG tank w/ regulator
Durable polyethylene holding tanks
35 gal fresh water tank 840 (incl. water heater)
33 gal fresh water tank 850 (incl. water heater)

Standard Bathroom Features
Hand flush toilet
Molded full height fiberglass shower stall
Shower curtain with curved track
Bath skylight
Exhaust fan in bathroom
Medicine cabinet w/mirror
Toilet paper holder
Fold-down clothes hanger

Standard Safety Features
GFI circuit protection
Smoke alarm
LPG leak detector
Carbon monoxide detector
Fire extinguisher
Dead bolt lock on entry door
Egress window (emergency escape)

Standard Bedroom Features
Inner spring mattress w/bedspread
Designer headboard
Shirt wardrobe cabinet
Night stand
Bedroom reading lights
Electrical outlets
Privacy curtain in cab over
Bedroom roof vent

Available Options
Large Exterior Folding Grab Handle
Exterior Shower
AM/FM CD Player
CSA (Canadian Dealers Only)
LCD TV
TV Antenna
Microwave Oven
Fantastic Fan Vent
Dual 5 Gallon LP Tanks
Storm Windows
Thermal Pane Windows
Roadside Utility Light
Range Cover
Heated Holding Tanks
Fox Landing - Bumper Required
Rear Bumper / Fox Landing Ready
Roof Rack and Ladder Ready
Roof Rack and Ladder
Gen Ready (Short Box Only)
2.5 Onan LP Generator
60 Watt Solar Panel
Sewer Hose Storage
Combo Bunk Cabinet /w Dinette Light
Electric Jacks
Roll Out Brackets
Roll Over Sofa
Wardrobe Curbside
11 K BTU Air Conditioner
16" Oven
5 Cu Ft Fridge w/Insert Panels
1 Deep Drawer Under Cooktop
Add-A-Step
Rear Awning
Side Box Awning - Curb Side
Side Box Awning - Road Side
Side Boxes (Short Box Only)
Sink Cover/Cutting Board
Kitchen Counter Extension (850 only)

CAMPER SAFETY TIPS:
For your safety while driving, use mirrors that allow you to view past the camper to the rear on both sides. Trucks can be purchased with extended mirror options or you may purchase mirror extensions. Truck manufacturers state that you should not exceed the GVWR for the vehicle that carries your camper. The configuration of your truck will determine what size camper your vehicle can carry.
A dual rear wheel truck is advisable for Wolf Creek campers. Adjustable air bags will help to level your vehicle, transfer rear axle weight forward for comfort and safety, and are recommended for all Wolf Creek applications. Some states allow passengers to ride in the camper, but it is not recommended as there are no seat belts available. When driving in any adverse weather condition it is always best to reduce your speed. The pickup should be outfitted with a durable rubber mat liner to reduce shifting while traveling. The mat will also protect the truck bed and camper from scratching while loading and unloading.
