“As Always, Stay Amused”
~Sebastian Halyard

“I still spend most of the year disperse camping off-the-grid. I like to drive up spurs off the main forest and desert roads looking for quiet, isolated spots. It wasn’t long before there were scratches down both sides of the Nash. But what the hey, it is a recreation vehicle and some of the spurs roads are tight. I’m a full time hard-wall camper. The Nash 17K is proving to be a good home for my two cats and me, and it sure is holding up to all the miles of rough roads.”

Sierra Vista, AZ. Sebastian Halyard

“My husband and I were vacationing in Yuma earlier this year in our RV. We just went to look at new RVs, not intending to buy. But when we saw the Nash we were sold. We bought the 24’ with slide travel trailer. We took our new trailer to Joshua Tree and Lake Havasu before coming home. There is no comparison in the appearance and quality. We are cruising the west coast for the first time and here we are in Joshua Tree having the time of our lives. Thanks for a great product! We just love our new trailer and look forward to many happy travels. Thank you for a quality made in USA product.”
Sincerely,
Bob and Nancy Keith - Paola, Kansas
What is ABSOLUTE NORTHWOOD?

Our Commitment to

Quality
Strength
Durability

1
QUALITY FIRST

When you purchase a Nash, you are investing in the best quality materials, construction and craftsmanship. That is why the resale value in a Nash remains higher, and your investment retains its value longer. If you ever decide to trade in your Nash, you will get top dollar. That is why you don’t see many used Nashes on the market, folks buy them up as quickly as they become available because Nash has a reputation for durability and longevity.

CHASSIS
✓ Custom Built, Tested, Certified

FRAMING
✓ Bonded Wall Construction w/ Select Quality Lumber

INSULATION
✓ A True 4 Season Coach

CABINETS
✓ Wall & Ceiling Mounted, Face Frame Construction

ROOF
✓ Full Walk On, Bonded Roof Truss System

NORTHWOOD BUILT CERTIFIED CHASSIS

WE BUILD OUR OWN
HEAVY DUTY STRUCTURAL STEEL OFF-ROAD CHASSIS

We are one of the few manufacturers that build their own chassis. The name NORTHWOOD is known throughout the industry for quality chassis and we certify ours through an independent testing laboratory for quality assurance.

A TRUE FOUR SEASON ALL CONDITIONS UNIT

HEATED ENCLOSED HOLDING TANKS & DUMP VALVES DESIGNED FOR COLD NORTHERN/HOT SOUTHERN CLIMATES

Northwood builds true 4-Season Coaches. Our fully insulated holding tank area circulates warm air around the suspended tanks providing the best protection from freezing. Our knife valves are also enclosed to keep them from freezing. Our 4-Season coaches are insulated with various types of residential quality Rigid Foam, Batten & Reflective Foil insulation to protect you from the winter cold & summer heat.

NORTHWOOD BUILT ONE PIECE LAMINATE FIBERGLASS WALLS

"SELECT" Grade Lumber
16" O/C Framing
2x6 Slide Headers
2x4 Wheel Wells
One Piece Fiberglass
Hot Glue Pressure Applied
Luan Backing
Structural Joints Reinforced w/Steel Hurricane Plates

Continuous Seamless Fiberglass
Steel Reinforcing Plates
Bonded One Piece Wall Sections

OUR BONDED ARCH TRUSS SYSTEM ENSURES A FULL WALK-ON ROOF CATHEDRAL ARCHED CEILING

The Northwood Bonded Roof Truss System bonds all the components of the roof structure together as a unit. The ceiling, arched trusses and roof plywood are unified in a bonded system that gives superior load distribution and maximum load bearing capacity.

Top quality exterior grade plywood panels are bonded to the trusses and a thick one piece roofing membrane is then applied for a durable, long lasting seal to protect you and your coach from the elements.

Northwood’s Arched Trusses offer up to 5-1/2 inch center height, giving the roof plenty of runoff slope to eliminate standing water.

CUSTOM BUILT FACE FRAME CABINETS

CABINETRY w/SOLID WOOD DOORS, BUILT USING RESIDENTIAL FACE FRAME CONSTRUCTION METHODS & INTEGRATED WITH THE WALL & CEILING.

BEAUTIFUL & STRONG

Solid Wood cabinet doors ensure lasting beauty and rugged strength.

Face Frame construction gives our cabinets ‘high end’ residential quality.

CONSTRUCTION

Structurally integrated cabinetry is anchored to the walls and ceiling structure of our coaches making both the RV and the cabinets stronger.

INSTALLATION

"We camped 3 nights in Two Medicine Campground, Glacier National Park with our new 24M Nash. As a test, we camped in the no generator loop, which was very quiet and we were pleased with the attached solar panel. We had no problems with not having enough power. For that trip we had plenty of water for showers and washing dishes. There is so much room in the trailer that we still have empty cabinets, what a change from before. The trailer is so well insulated that the heater only came on one night. Next trip next week, Icefields Parkway and Jasper National Park in Canada."

-Jim Streeter
