OUR BONDED ROOF TRUSS SYSTEM ENSURES A FULL WALK-ON ROOF

The Northwood Bonded Roof Truss System bonds all the components of the roof structure together as a unit. The ceiling, trusses and roof plywood are unified in a bonded system that gives superior load distribution and maximum load bearing capacity.

Top quality exterior grade plywood panels are bonded to the trusses and a thick one piece roofing membrane is then applied for a durable, long lasting seal to protect you and your coach from the elements.

Custom Built Face Frame Cabinets

Cabinetry w/solid wood doors, built using residential face frame construction methods & integrated with the wall & ceiling.

Beautiful & Strong

Solid Wood cabinet doors ensure lasting beauty and rugged strength.

Face Frame construction gives our cabinets 'high end' residential quality.

Structurally Integrated cabinetry is anchored to the walls and ceiling structure of our coaches making both the RV and the cabinets stronger.

Arctic Fox is a True Four Season Coach
We stopped at the base of the Teton Mountains for lunch a couple weeks ago on our summer road trip this year in our 2016 Arctic Fox 30U. Got a chance to take a pretty cool picture, what a view! We are loving our new trailer by the way!! Thought you might enjoy seeing the picture.
