Arctic Fox
TRUCK CAMPERS

The reason for my adulation sits squarely in the brilliant non-slide, mid-bath floor plan and its high-quality execution. The panoramic rear view, full-booth dinette, straight kitchen, large wet bath, and cabover bedroom separation make the floor plan work beautifully. Northwood’s top notch quality makes the final product a real winner.

2019 Arctic Fox 865 Review - Truck Camper Magazine - March 26, 2019

- Huge Load Capacity w/ 4” Additional Head Room and 5” Thick Rigid Foam at the Crown of the Cathedral Arch Ceiling
- Heated Enclosed Large Capacity Holding Tanks
- Solid Wood Cabinet Doors & Drawer Faces
- One Piece, Laminated Fiberglass Exterior Siding
- See the Video ‘36 on the Roof’ on the Website

- Rieco Titan Remote Controlled Power Jacks Each Rated At 2,500 Lbs.
- All Conditions 4 Season Insulation
- Fully Welded Aluminum Frame
- Large Capacity Storage Compartments
- Large Battery and LPG Capacities

Long & Short Box Option Available

SOLITAIRE AZUL 2020

---

SOLITAIRE AZUL 2020
My favorite features would be that it has a good amount of storage on the interior. Also it has two 7 gallon propane tanks, a 50 gallon water tank, and is four-season rated, all great features for extended stays while boondocking. The camper came equipped with a 2,500 watt propane onboard generator and a 100 watt solar panel on the roof. I also have an 80 watt portable solar panel that I direct towards the sun. I primarily use solar to recharge my two 105 amp hour AGM batteries. I don’t have a big need for power so it keeps up pretty good unless it cloudy all day then I’ll top the batteries off with the generator. It’s been a great setup for me so far.

Kirk Harris - Full Timer/ Owner of an Arctic Fox 811 -

Absolute Northwood
"Where Quality is Everyone's Responsibility"

Our Solid Core Anchor Blocking

Structural Aluminum Basement Floor Frame

That's the Arctic Fox Basement Floor!
Thick wall aluminum basement floor joists support our holding tanks under the basement of every Arctic Fox Truck Camper.

'Big' holding tanks require a 'Big' floor structure...

Our Commitment to Quality Strength Durability

Solid Wood Cabinetry Mounted to the Walls and the Ceiling

By using solid wood face frame construction and then integrating the cabinet with the structure of the ceiling and walls, our coaches and our cabinets are both made stronger.

4 Season All Weather Camper
Our fully enclosed, insulated and heated holding tank area circulates air around the suspended tanks providing the best protection from freezing. All our dump valves are also enclosed and heated to ensure smooth operation, even in cold northern climates.
I love my Arctic Fox 990 as I can go anywhere and just camp out for a week or so out in the boonies.

The Long & The Short of it.

Customers often ask... What’s the deal with ‘long box/short box’ designation on the 811 & 865 model Arctic Fox

A brief explanation: ‘The Box’ we are referring to is the truck bed.
In a short box (bed) truck, the distance from the bulk head to the rear bumper is less, so more of your camper will extend beyond the rear bumper. That extra overhang makes it possible for additional storage or for a generator compartment. A long bed (box) pickup has more of the camper inside the bed and less overhang.

See the schematic below:
Here we are at Lake Shasta, California. This is our first real camping trip in our new Arctic Fox 992. Love, Love the camper! Mike and Linda Godsil
When Northwood advertises a "Full Walk-On Roof" for our Arctic Fox truck campers, you not only can walk everywhere on the roof, but you could invite a couple dozen of your friends to join you!

We tested the strength of our AF 990 full-wall slide model by loading the roof with 36 of our camper line employees.

(A good testimonial for our camper jacks, too!).

When we say ‘FULL WALK ON ROOF’ we mean it!

Don’t try this with your camper, especially if it’s a competitor’s model! Our employees are in, on and around campers all day long. Please, be safe!

CAMPER SAFETY TIPS: For your safety while driving, use mirrors that allow you to view past the camper to the rear on both sides. Trucks can be purchased with extended mirror options or you may purchase mirror extensions. Truck manufacturers state that you should not exceed the GVWR for the vehicle that carries your camper. The configuration of your truck will determine what size camper your vehicle can carry. A dual rear wheel truck is advisable for Arctic Fox campers. Adjustable air bags will help to level your vehicle, transfer rear axle weight forward for comfort and safety, and are recommended for all Arctic Fox applications. Some states allow passengers to ride in the camper, but it is not recommended as there are no seat belts available. When driving in any adverse weather condition it is always best to reduce your speed. The pickup should be outfitted with a durable rubber mat liner to reduce shifting while traveling. The mat will also protect the truck bed and camper from scratching while loading and unloading.

Use TORKLIFT frame mounted camper tie downs for greatest safety.

INSULATION
A True 4 Season Coach
We enjoy our travels in our Arctic Fox 1140 camper. We love the fact that we can camp off grid and very seldom stay in a campground.

We have 300 watts of solar on the roof and with the size of our tanks we last about 10 days until we have to dump and refill our tanks. With the solar power and the low power usage of the camper’s led lights we generally have full batteries by night fall. This summer we went for 70 days without plugging into power or running our generator, just using solar power. Our summer trip was mainly in Montana, Wyoming and Utah.

With our camper we are able to get into more places and stay longer without the need to find power or campgrounds.

2015 Arctic Fox 1140
Russ & Gretchen Bergquam
Our summer trip - Mostly Montana, Wyoming and Utah... In the Red Canyon area.

We have had 3 Truck Campers and we have enjoyed them so much. Our first had no slide...then around 2013 we traded it in and bought a Lemon... every time we took it out we would come back and spend a month fixing something... Finally trade it off and got $500 on the trade in for a 2007 Arctic Fox-990.

The queen of our truck Camper experience is the AF-990, even though this one has had a rough life, from what I know, we are the third owner of it, but we have enjoyed the Fox a lot!
...and we love the big wardrobe.

I love my Arctic Fox 990 as I can go anywhere and just camp out for a week or so out in the boonies. Quartzsite, AZ BML Long Term Visitor Area (LTVA)

• One Piece, Laminated Fiberglass Exterior Siding
• Rieco Titan Remote Controlled Power Jacks Each Rated At 2,500 Lbs.
• All Conditions 4 Season Insulation Package w/ Enclosed Heated Holding Tanks
We had another camper for two years, but the dinette was small, just under 6' and was only 18" deep. When we saw the 990 Arctic Fox with the full wall slide, the 26" slide depth, the closet space and the extra counter space, that was all it took. We stepped up to the 1150 since we have a dually pickup. I found one on the internet and drove all the way to Boise from Colorado to pick it up. We are happy with the Arctic Fox and this will be our third winter in it down in southern Arizona. Last year while boon docking with our ATV's for 80 days we only spent 62 dollars for camping and or dumping the tanks. As far as the camper... it’s great!
Frank Niehus  Elbert Co.

Talk about a test drive... In a 2 year period I spent 182 nights in Arctic Fox Truck campers! I started with a 990 then switched to a 992. It's amazing what you will discover by living in your products... it's the little things you discover. As a result of my travels in the Arctic Fox, Northwood added a bigger dinette window, the dream dinette, a lighted dump valve area, clear glass in the rear entry door and many more improvements. Believe me, I know these campers inside and out!

Doug Karr "The Camper Guy"
Arctic Fox

- Welded Aluminum Frame

- Risco Titan Remote Controlled Power Jacks Each Rated At 2,500 Lbs.
- All Conditions 4 Season Insulation Package w/ Enclosed Heated Holding Tanks

Desert Palms 2020
All Conditions means ALL Conditions!

I’ve always thought the Arctic Fox was a quality camper; I like the aluminum frame, the 4 season insulation and features like the solar panels, A/C, propane genset and spacious, quality interior. When we bought our 1150 at the end of June our first trip a week later was to go from NY to Vernal Utah for the July 4th POW WOW for the Ute Indian reservation... We now have been using it every year to go to Arizona and stay at some remote places in the desert... I tend to be pretty adventurous with my Camper!
